

Shohoku Intercultural Understanding Program

For learning foreign languages and experiencing international exchange activities

We provide language classes aimed at improving language skills practically. We also provide abundant opportunities for international exchanges and understanding foreign cultures, not only overseas but also in Japan.

Language Learning

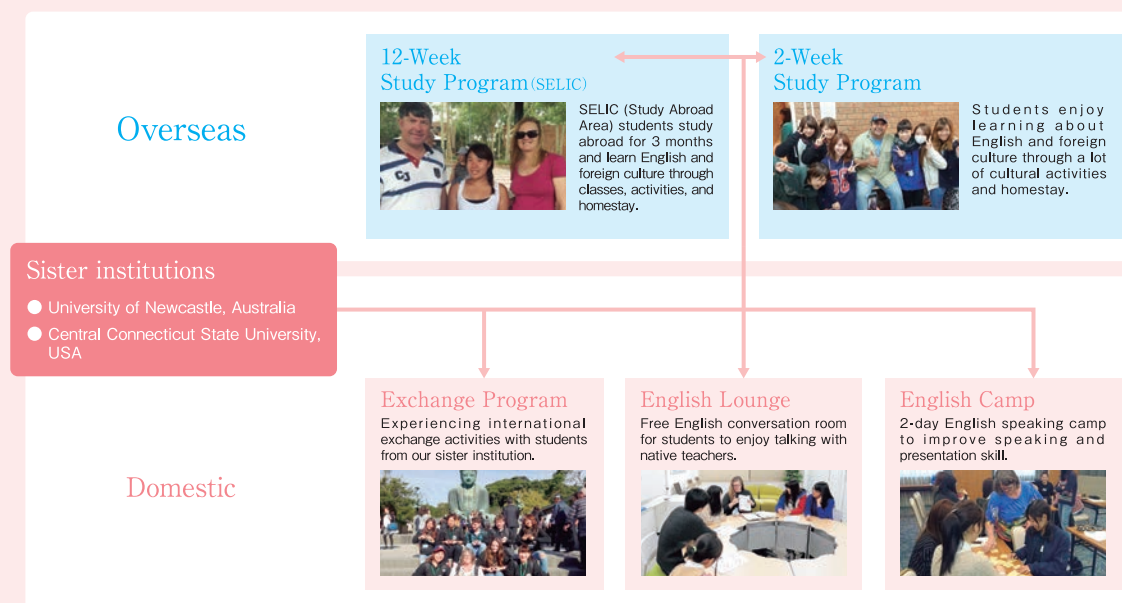

We provide small classes by proficiency level for English learning. The classes place the emphasis on interactivity to ensure that every student improves listening and speaking skills through a lot of exercises. We utilize a wide range of teaching materials, including the Internet, DVDs and computers.

Subjects

- General English I, II, III, IV
- English
- English Grammar I, II
- Essential English
- Advanced English I, II
- Practical English (TOEIC)
- Overseas study tour
- Intercultural Communication
- Foreign Studies
- Chinese

Cultural Understanding

Global Communication Center

Aiming to provide students with knowledge, communication skills and abilities that will lead to great success in a global society, we offer students various international education programs such as language education and international exchange activities. Initiated by students of the International Exchange Committee, an autonomous student organization, abundant learning opportunities are provided to help them to obtain an international perspective.

Our History

Shohoku College was established by the Sony Institute of Higher Education in 1974. For more than 40 years since its foundation, Shohoku College has steadily created its own style of education based on the core belief education, does not simply consist of imparting knowledge from itself, but also of providing an environment in which students can do so effectively. Approximately 1,000 students currently enrolled in Shohoku College are engaged in realizing their individual potential while studying for their future.

Sony Institute of Higher Education

Shohoku College

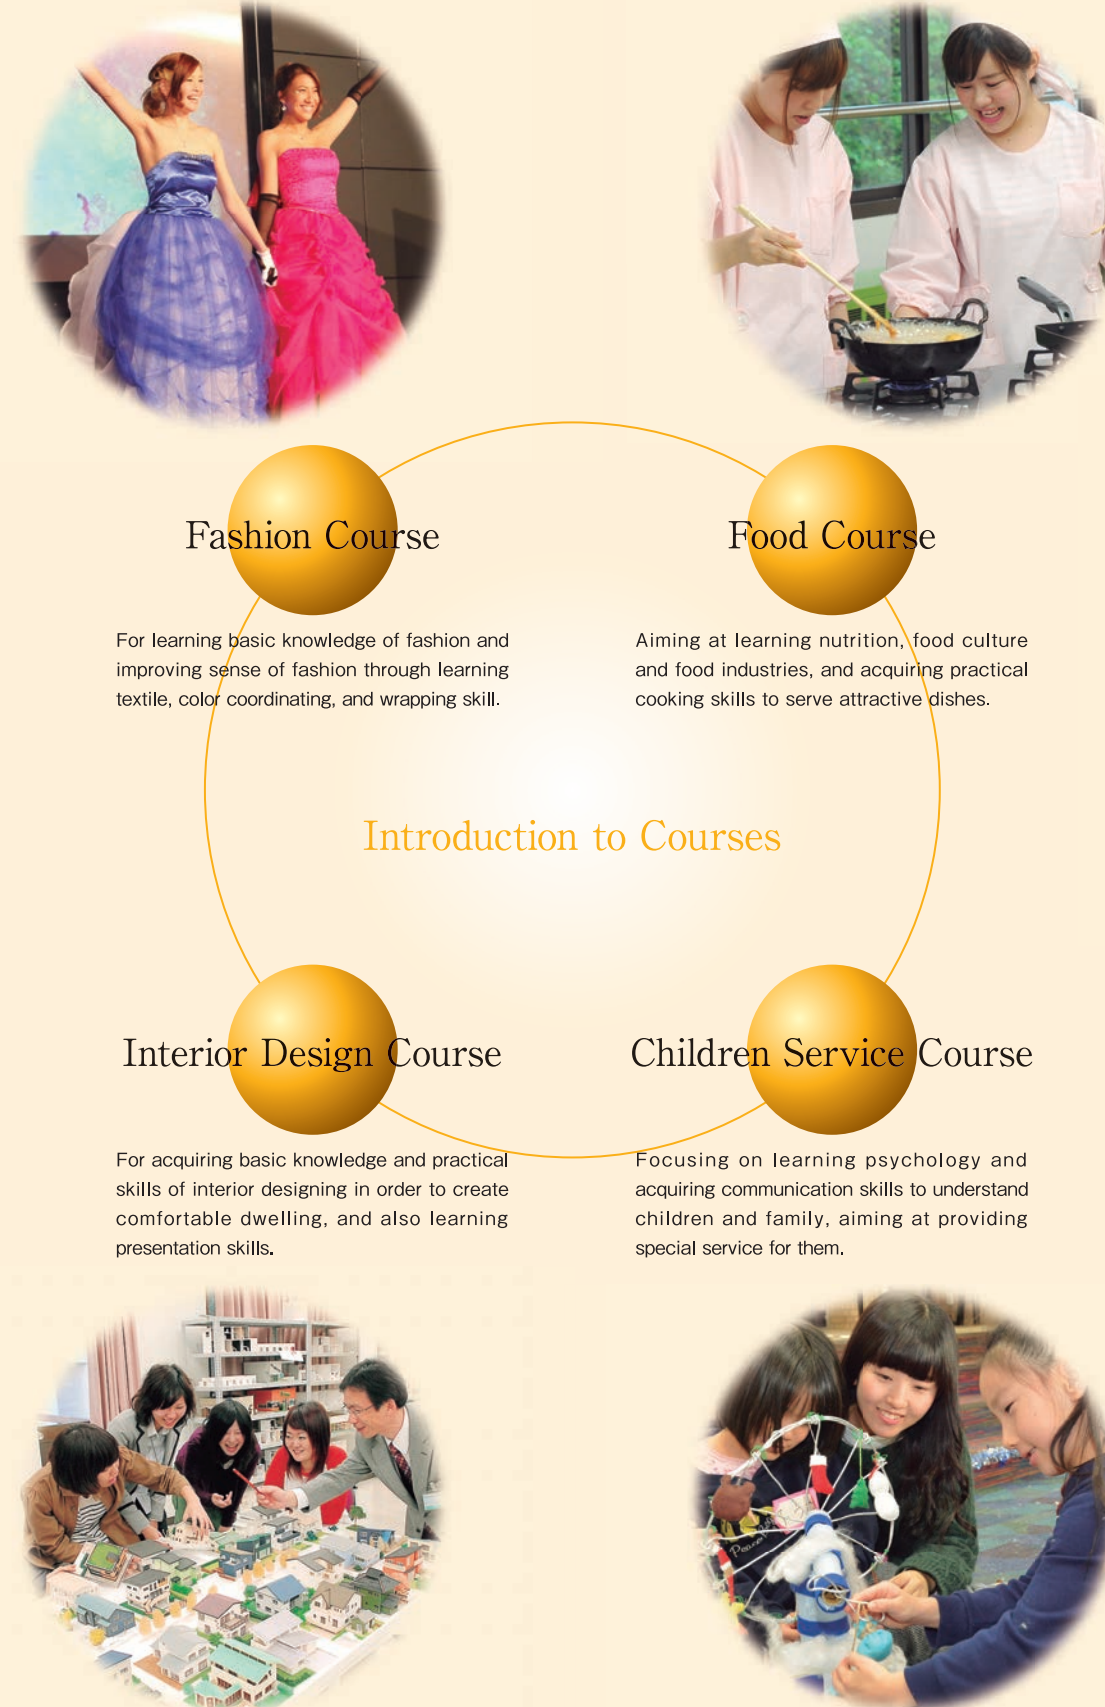

Department of Business and Informatics

Seven study fields have been established to provide students with knowledge and skills required for various business situations and to freely manage information using computers. Each field offers practical exercises that will prove valuable for any occupation.

Department of Creative Life-Style Management

This department is designed to help students to create a new lifestyle through practical exercises including fashion show, cooking, interior model exhibition, etc.

Department of Early Childhood Education and Care

This department is designed to help students to understand the steadily changing family environment and develop environment for children. Students will learn the importance of children's environment while acquiring knowledge and skills related to child care. Students can obtain practical experience at "AYUNOKO HOIKUEN", our associated nursery school established in 2005.
